## ELECTROMECHANICAL AND SERVICING SETS

### SELECTED TOOLS

As used by installation and after-sales engineers and technicians.

#### DEDICATED KITS:

Each tool set is available with or without a service case.

These strong, robust cases are designed to transform into genuine on-site workstations.

Tidy storage arrangements and instant tool identification save time and avoid leaving tools behind after job completion.

The integral folding, lockable trolley system is provided on a number of models, for fast, effortless travel and performance of on-site repairs..

The trolley-mounted case is easy to transport and ensures that the tools are always held at the correct height, allowing unrestricted working.

 For the complete range of cases, see section 4.

" Service plus "

This symbol means that 20% extra container space remains available when tools are loaded.
