A Caution

The products in this catalog will be or have been stopped production

Discontinue Issue Date	May.21, 2015
Last Purchase Order Date	Dec.22, 2016
Last Shipment Date	Jan.30, 2017

Please refer to our Web site about replacement information.

protection circuit/device or providing backup circuits in your equipment.

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using these products.

⚠ REMI	NDERS
The storage period is less than 6 months. Be sure to follow the stora less). If the storage period elapses, the soldering of the terminal electrode	
O Do not use or store in locations where there are conditions such as	gas corrosion (salt, acid, alkali, etc.).
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature does not exceed 150°C. 	difference between the solder temperature and chip temperature
Soldering corrections after mounting should be within the range of t If overheated, a short circuit, performance deterioration, or lifespan	
When embedding a printed circuit board where a chip is mounted to the overall distortion of the printed circuit board and partial distortion	
 Self heating (temperature increase) occurs when the power is turned design. 	ed ON, so the tolerance should be sufficient for the set thermal
 Carefully lay out the coil for the circuit board design of the non-magnetic and the non-magnetic interference. 	etic shield type.
◯ Use a wrist band to discharge static electricity in your body through	the grounding wire.
○ Do not expose the products to magnets or magnetic fields.	
○ Do not use for a purpose out <mark>side of the contents regulated i</mark> n the de	elivery specifications.
 The products listed on this catalog are intended for use in general equipment, home appliances, amusement equipment, computer equipment, industrial robots) under a normal operation and use correct the products are not designed or warranted to meet the requirement quality require a more stringent level of safety or reliability, or whose society, person or property. If you intend to use the products in the applications listed below or it set forth in the each catalog, please contact us. 	uipment, personal equipment, office equipment, measurement ndition. Ints of the applications listed below, whose performance and/or e failure, malfunction or trouble could cause serious damage to
 Aerospace/Aviation equipment Transportation equipment (cars, electric trains, ships, etc.) Medical equipment Power-generation control equipment Atomic energy-related equipment Seabed equipment Transportation control equipment When designing your equipment even for general-purpose application	 (8) Public information-processing equipment (9) Military equipment (10) Electric heating apparatus, burning equipment (11) Disaster prevention/crime prevention equipment (12) Safety equipment (13) Other applications that are not considered general-purpose applications

INDUCTORS

Inductors for Decoupling Circuits Wound Ferrite

Product compatible with RoHS directive Compatible with lead-free solders

Overview of NLC565050 Type

FEATURES

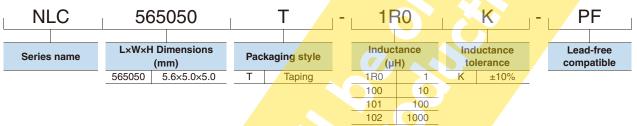

O Resin mold type wound inductor for decoupling circuits.

 \odot E-12 Series, wide lineup compatible with K (±10%) tolerance allows for various usages.

APPLICATION

Smart meters, AV equipment, xDSL, electronic devices for communications infrastructure such as mobile base stations, industrial equipment, other

PART NUMBER CONSTRUCTION

OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

	Tempera	ture range	Package quantity	Individual weight
Туре	Operating temperature*			
	(°C)	(°C)	(pieces/reel)	(mg)
NLC565050	–40 to +105	-40 to +105	400	380

* Operating temperature range includes self-temperature rise.

** The Storage temperature range is for after the circuit board is mounted.

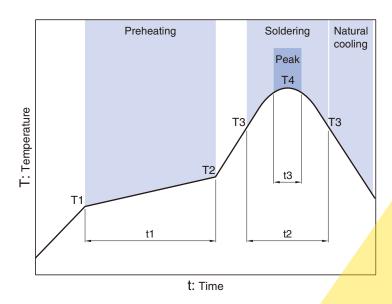

OROHS Directive Compliant Product: See the following for more details related to RoHS Directive compliant products. http://product.tdk.com/en/environment/rohs/

* Rated current: smaller value of either Idc1 or Idc2.

Idc1: When based on the inductance change rate (10% below the initial L value)

Idc2: When based on the temperature increase (Temperature increase of 20°C by self heating)

O Measurement equipment

Measurement item	Product No.	Manufacturer
L, Q	4194A+16085A+16093B	Agilent Technologies
DC resistance	VP-2941A	Panasonic

* Equivalent measurement equipment may be used.
