The wireless AK-PMH3 Medical Mouse is ideal for hygiene-critical environments in hospitals, medical practices, and microbiological laboratories. It is 100% waterproof and can be sprayed, wiped or fully immersed in water and/or hospital-approved disinfectants. The gap-free design facilitates optimal wipe disinfection and protects against the ingress of dirt and liquids.

The technical features of the AK-PMH3 are equally impressive: the ergonomic shape, the precise 3-button scrolling and the useful wake-up-by-motion function all ensure maximum comfort and productivity. The blue light sensor guarantees precise cursor control even on glossy surfaces and the 2.4 GHz wireless connection enables safe and reliable data input.

The AK-PMH3 is an indispensable tool for both right and left-handed users in hospitals and medical practices.
