

SIP 07649 9 Inch Welding Angle Clamp

SIP specialist angle jig and fixture clamp to allow one person to set up and weld instantly. Made from cast iron this clamp has a pivoting jaw and copper plated spindle for spatter protection. The sliding 'T' handle gives precise clamping for a multitude of welding tasks under high pressure. The oblong holes allow the angle clamp to be easily fixed to a workbench or machine tool table.

- Specialist Angle Jig And Fixture Clamp
- Sliding 'T' Handle For High Pressure
- Cast Iron
- Spindle Copper Plated For Spatter Protection
- Oblong Holes For Easy Fixing To Workbench Or Machine Table
