FLEX® / FLEX MINI® Panel Meters

FLEX®

A family of 1/8 DIN size analog input panel meters with a wide range of input capabilities.

Feature: Sunlight readable, .56" red 5-digit display

Benefit: High visibility in a wide variety of operating environments

Feature: Wide selection of output and communication modules available

Benefit: Allows for configuring the FLEX® to your exact process requirements

Feature: Available in universal AC input supply or DC models

Benefit: Allows for installation with all popular control panel voltages

FLEX	Model Number	Description
Series	RFXD00 / RFXD10*	1/8 / Din Universal DC Input
	RFXP00 / RFXP10*	1/8 Din Process Input (0-10 VDC, 0/4-20 mA)
	RFXH00	1/8 Din AC True RMS Voltage and Current
	RFXS00 / RFXS10*	1/8 Din Strain Gauge Input
	RFXT00 / RFXT10*	1/8 Din Thermocouple and RTD Input
Accessories	RFXDS10	Dual Setpoint Relay Output Card
	RFXDS40	Quad Setpoint Sourcing Open Collector Output Card
	RFXDC10	RS485 Serial Communications Output Card with Terminal Block
	RFXDC40	Modbus Communications Card
	RFXDL10	Analog Output Card

* 11-36 VDC, 24 VAC input (others 85-250 AC)

FLEX MINI®

A family of low cost, compact analog input panel meters with a full array of features for any industrial application.

Feature: Compact 39 x 75mm front panel

Benefit: Allows for more metering in the same size or smaller panel

Feature: Wide selection of output and communication modules available

Benefit: Allows for configuring the FLEX MINI® to your exact process requirements

Feature: Available in standard DC plus optional AC universal power supply

Benefit: Allows for installation with all popular control panel voltages

FLEX MINI	Model Number	Description
Series	RFMV00 / RFMV00R*	DC Volt Meter (0-200 mV, 2V, 20V, 200V)
	RFMI00 / RFMI00R*	DC Current Meter (0-200 μ A, 2mA, 20mA, 200mA)
	RFMP00 / RFMP00R*	Process Input Meter (0-10 VDC, 0/4-20 mA, 0-50mA)
	RFMT00 / RFMT00R*	Thermocouple Input Meter (types T, E, J, K, R, S, B, N, or mV)
	RFMR00 / RFMR00R*	RTD Input Meter (Pt 385, Pt 392, Ni 672, Cu 427)
Accessories	RFMRL00	Single Relay Output Card
	RFMSK00	Dual Sinking Output Card
	RFMCOMM	RS485 Serial Communications Card
	RFMPS1	Flex Mini Power Supply, 85-250 VAC

* Reflective display (others backlit red or green)

VEEDER-ROOT

What YOU Need - When YOU Need It

Our team of engineers and sales representatives will assist you every step of the way to be sure you get what you need. Whether it is a pricing quote, expedited delivery, technical support or application assistance, we are here to serve YOU!

Reliable and Responsive

FLEX®/FLEX MINI® is an innovative product of Veeder-Root, a supplier of mechanical, electromechanical and electronic timers and counters for over 120 years. Veeder-Root is a part of Danaher Specialty Products, a global leader servicing a large percentage of the worldwide timer and counter market.

Highest Quality - ISO 9001-2008 Certified

FLEX®/FLEX MINI® is manufactured and tested to the highest quality standards, making it the most reliable panel meter on the market. Our commitment to ISO-9001 means you, our customer, get world-class products and customer service.

Application Support

Not sure what you need? Our experienced Engineers and Application Specialists will help you solve any of your timing, counting or display problems - whether off the shelf or custom.
